

Fire Alarm Permit Requirements

Fire Alarm Submittals Shall Include The Following:

- Valid contractor's license or equivalent certification
- Completed permit application with correct address and valuation
- Three Sets of Plans (Min 1/8" Scale) (A maximum of three sets will be stamped) Digital Plans are acceptable as well.
- PE or NICET Level III Stamp on all plans
- Minimum of one set of material cut sheets
- Voltage drop calculations
- Battery calculations
- Symbol list
- Riser diagram

The above list is not intended to be all inclusive of all requirements for a fire alarm submittal, but rather a guide to indicate the

minimum requirements.
